PRODUCT LEAFLET

Stack frame

112.2200 Stack frame (Medium 200) inner size 590x820x200 (WxLxH)

Early 2012 SmartMetals noticed an increasing demand for stack frames for projectors up to 50 kg. This to mount and fine adjust heavy projectors in the truss, and to stack projectors for multi-projection. With multi-projection it is preferred to position the projectors together as close as possible; the ability to choose between several heights in the stack frames, suited to your projector type, was therefore one of the features we focussed to include. Our range of stack frames presents 3 basic sizes with the possibility to select the height of your projector and a projector specific bracket to create a perfect fit.

PRODUCT LEAFLET

Stack frame

Features

Maximum length: 820 mm
Weight: 29.40 kg
Colour: Black
Maximum load: 95 kg

Bracket/interface: Excluded
Type bracket/interface: Projector specific
Tilt function: +5° tot -5° / +2.5° tot -7°
Rotation: +3.5° tot -3.5°
Other information: Max. stacked weight under top frame is 275 kg.
